

2023 PM CHALLENGE

PROJECT MANAGEMENT IN PARTNERSHIP WITH
AIRBUS

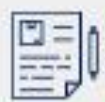

Project Management meets Artificial Intelligence

What is the application of Artificial Intelligence that will transform project management the most and why?

Participate in a Project Management Challenge organized by the Programme & Project Management department of Airbus. You will work on a current operational topic & join a competition with groups of students from different schools and universities from all over the world. Participating will give you a great chance to use what you have learned in your studies and apply it to the aeronautical corporate world .
